THIRD WORLD CONGRESS FOR FRIENDSHIP AND SOLIDARITY WITH THE SOVIET PEOPLE REPORT

Dear readers:

This Third World Congress that was held on September 9-10-11 at the Friendship House in Toronto was one of the most important and the most productive for friendship and solidarity with the Soviet People.

While the Canadian Government refused visas to many delegates that wanted to come to the Third World Congress, other governments did not allow delegates out of their country. Many delegates in Europe lacked the finances for the airfare to attend, but they sent greetings to the Congress.

A delegation of 3 comrades came from Russia, including from the Soviet Society for Friendship with Foreign Countries, from the Union of Soviet Officers and from the Union of Russian Jurists.

Details of the Congress are being published in this issue of NSC as were recorded by the Congress Secretaries, plus many photographs that were taken during the course of the 3-day Third World Congress in Toronto, Canada.

Onward towards the Fourth World Congress which will be held in Moscow in 2014!

WHEN WILL THE INTERNATIONAL COURT ARREST BUSH AND BLAIR ?

By Dr. Motsoko Pheko

Former Member of Parliament, Pan African Congress of Azania, South Africa

The International Criminal Court has called for the arrest of Libyan President Gaddafi for alleged crimes against humanity. When will this Court call George Bush and Tony Blair to account for their war crimes in Iraq, Afghanistan and the Israeli leaders for their crimes against the Palestinians?

It is a fact that the United States Government itself has NOT SIGNED the Statutes of this International Criminal Court! Why? The reason is very obvious. *(They set the rules of the ICC but do not follow them – because they are the perpetrators – Editor),*

This ICC is full of glaring injustices and the fight against "terrorism" is just a smokescreen to hide behind the ambitions of US imperialism and preterd that they are fighting for "democracy and freedom."

Yes, when will the ICC bring these two war criminal to justice?

No amount of wishy-washy statements that are now being made daily by the Russian authorities, will never wash away the criminal stand taken by Russia – which could have stopped this slaughter in Libya!

Oh yes, regarding the demands by the UN-NATO, that President Gaddafi of Libya step down – Mishka has a more logical proposal – that the present leaders of Russia and China immediately step down!

30 YEARS AGO – MIDDLE CLASS IN AMERICA DIED

A letter from MICHAEL MOORE

August 5, 2011

Friends,

From time to time, someone under 30 years of age will ask: "When did all this begin, America's downward slide?" They say that they heard of a time when working people could raise a family and send their kids to college on just one parent's income, and that college in US States (like California and New York were almost free). That anyone who wanted a decent paying job could get one. That people only worked five days per week, eight hours per day, got the whole weekend off and had a paid vacation every summer. That many jobs were union jobs, from baggers at the grocery store to the guy painting your house, and this meant that no matter how "lowly your job was you had guarantees of a pension, occasional pay raises, health insurance and someone to stick up for you if you were unfairly treated at work.

Young people heard of this mystical time – but it was no myth in America at that time – and it ended on August 5, 1981.

Thirty years ago, Big Business and the Right Wing decided "to go for it" – to see if they could actually destroy the middle class so that they can become richer themselves.

And they've succeeded!

On August 5, 1981, President Reagan fired every member of the Air Traffic Controllers Union (PATCO) who had defied his order to return to work and then declared their trade union illegal. These trade union members were on strike for only two days!

It was a bold and brash move by Reagan, No one in the USA ever tried to do that before. What made it even bolder was that the trade union PATCO of only three trade unions that had endorsed Reagan for President! It sent a shock wave

through the workers all across the country. If could do this to the people that who were with him and endorsed him for US President, what will he do to us?

President Reagan was backed by Wall Street, and they, together with the right-wing Christians, wanted to restructure America and turn back the tide that President F. D. Roosevelt started - a tide that was intended to make life much better for the average working person. But the rich hated paying better wages and in providing benefits. They hated paying taxes even more. And they despised trade unions. The right-wing Christians hated everything that sounded like Socialism or holding out a helping hand to minorities or women.

President Reagan promised to end all of that. So when the air traffic controllers went on strike, he seized this moment. In getting rid of every single last one of them and outlawing their union, he sent a clear and a very strong message: The days of everyone having a comfortable life were over, America from now on will be run this way:

*The super-rich will make more – and the rest of you will scramble for the crumbs that are left.

* Everyone must work! Mom, Dad, the teenagers in the house! Dad, you must work at a second job.

* 50 Million of you must go without health insurance! and health insurance companies – go ahead and you decide whom you want to help or not.

* Trade Unions are evil. You will not belong to a trade union! You do not need an advocate! Shut up and get back to work! No you can't leave now. Your kids can make their own dinner!

* You want your kids to go to college? No problem – just sign here and be in hock to a bank for the next 20 years!

* What's "a raise"? Get back to work and shut up!

And so it went. But President Reagan could not have pulled this off by himself in 1981. He had some big help from: The AFL-CIO.

The biggest organization of

trade unions in America told its members to Cross the Picket Lines of the Air Traffic Controllers Union and go to work! And that's what these AFL-CIO trade unionists did. Union pilots, flight attendants, delivery truck drivers baggage handlers – they all crossed the picket line and helped to break this legal strike.

President Reagan as well as Wall Street could not believe their eyes! Hundreds of working people and union members endorsing the firing of their fellow trade union members! It was Christmas in August for Corporate America. And this was the beginning of the end.

President, the Republicans and Wall Street knew that they could get away with anything – and they **did!** Corporations froze wages, they slashed taxes for the rich – they eliminated safety regulations in the work place – they made it hard to start a trade union at work places. Corporations froze wages and threatened to move Overseas – and they more and more just did that.

I keep wondering what would have happened if all trade unions and workers just said NO to President Reagan and Wall Street in 1981? But we did not do that. And bit -by - bit in the last 30 years of stagnation and problems, the trade union power was destroyed. If you take a look at the statistics, every decline and economic crisis had its beginning after WW II in 1981.

Why have we given up? What are we waiting for? This decline will only end when we demand it. But it wont happen by signed petitions, or online or e-mail or twitter. Americans have to turn off their TV and the computer and their video games and get into the streets to demonstrate and demand.

When is enough, enough? Wall Street's plan is clear: America is to be a nation of Haves and Have Nothings!

Is that what we Americans want?

Why not pause and think about taking the first little steps to turn this around in your neighborhood, in your workplace and in your school?

NEWS FROM FORMER USSR

COMMUNISTS ERECT STALIN STATUE IN CITY OF PENZA

From RIA Novosti

A monument to Soviet leader Joseph Stalin was unveiled in July of this year at the Russian Communist Party headquarters in the city of Penza in the Russian Volga Region.

It took the local Communist one-year to collect the money for this monument project.

The participants in the inauguration ceremony quoted parts of Stalin's speeches and read poems dedicated to the "**Great Father of the peoples**".

Two monuments of Stalin were removed before from the city of Penza, even though there were large protests against this.

Russian Communists and people have been struggling against this course of "*de-Stalinization*" as demanded by President Medvedev (*a dual citizen of Israel and Russia* – Editor).

Great majority of Russians believe that Stalin played a "*very positive role*" while a minority described the role of Stalin as "*negative*"- according to Russia pollster Levada Center.

MAJORITY OF RUSSIANS WANT REBIRTH OF THE WARSAW PACT

From INTERFAX

"Over two-thirds (66%) of Russian citizens – mostly young generation (84%) who do not remember that the Warsaw Treaty Organization existed and was disbanded 20 years ago – but are convinced that Russia and other former Soviet republics need an organization of this kind today!

They now realize that the Warsaw Pact was formed in 1955 to stand against the danger of the Cold War and NATO danger. It was composed of: USSR, Albania, Bulgaria, Hungary, German Democratic Republic, Poland, Romania and Czechoslovakia.

It was disbanded July 1, 1991 due to the revisionist leadership in these countries without allowing the people a vote."

Of course these revisionists were working in hand-in-hand with NATO and US in particular,

PROPHETIC WORDS WRITTEN BY STALIN

Stalin in 1925, Selected Works, Vol. 7- Pages 170-171.

"There can scarcely be any doubt that the growing pressure of capitalist state of our Soviet State is enormous, that the people who are handling our Soviet foreign policy do not always succeed in resisting this pressure – that the danger of complications often gives rise to the temptation to take the path of least resistance and of nationalism....

This path of least resistance and of nationalism in our foreign policy

is the path of the isolation and decay of the first country that was victorious and moving towards building Socialism."

THEY LOST ALL MEMORY, REASON AND SHAME

From the AUCPB

Those who do not remember the crimes of the past are condemned to repeat them again. These words apply not only to the anti-Soviet elements in Western Ukraine and the Baltic states, but also to the leaders of Central Europe, who now mock the memory of the dead Soviet Red Army Soldiers who gave their lives for their liberation from fascism - the peoples of Germany, Poland, Hungary, Bulgaria, Romania, Yugoslavia and Czechoslovakia.

RUSSIA IS CONCERNED OVER US ACTIVITY IN THE ARCTIC

Russia's economic interests are threatened by the activities in the Arctic by NATO, that is infringing on the territory of Russia which is recognized by the United Nations.

Under US pressure, even countries like Malaysia and Thailand who DO NOT border on the Arctic, started to intensify their activities in this region.

US imperialism and its partner's do not care about international law or the UN Arctic Commission directives – it's the extensive mineral wealth they are after underneath the Polar Icecap!

US has already marked off its "zone of activity" in cooperation with Canada – contravening the UN Charter and its Arctic Commission.

US MISSILE SHIELD WILL COVER ALL OF EUROPE

From Sofia News Agency –Bulgaria

This US Missile Shield will cover all of Europe, including all of Bulgaria, according to the US

Undersecretary of State, Ellen Tauscher. He is in charge of the arms control and international security affairs at the US State Department in Washington, DC and he made this statement last month at the European Parliament meeting, where there was also present the former Bulgarian former Foreign Affairs Minister, Ivaylo Kaslfin.

US Undersecretary of State also informed the gathering that the talks between Washington and the partners in Eastern Europe are in an advanced stage of agreement.

US Defense Secretary Robert Gates demanded that Europe must be more active and supply more troops and help NATO have more stability in different missions around the globe.

U.S. IMPERIALISM DOES NOT CHANGE WITH NEW PRESIDENT

B Galina Sawchenko

Hitler came to power with the lavish help of the US and British Bankers, with one aim only – to attack the USSR.

Today, US are not leaving Iraq because there is gas and oil there.

US is not leaving Afghanistan because of the lucrative trade in narcotics-opium, while the US is trying to find a lucrative market in present day leadership in Russia Iran, Pakistan, India and China – so that the young generation will die sooner and thus leave a future vacuum. After the US troops came to Afghanistan, the growth of Opium jumped more than 40 times. It's the Americans who are pushing the narcotic trade to ever-higher limits!

Wherever the US politics starts to rule, there always develops a war or a crisis. War is the only means to save the American \$\$\$.

It seems that US is always at war – but always on foreign soil.

Today, although there is a dark-skinned president of the US, the policy of US Imperialism is the same. Colour in politics does not play any role. Because the policy of US imperialism did not change not

even one millimeter!

US Imperialism is holding in its jails, the Cuban Five. We all thank Northstar Compass for publishing articles and photographs about these heroic Cuban Five.

I am asking all readers of NSC to write letters to the Cuban Five, NSC had published the addresses of the Cuban Five comrades in previous NSC issue.

PUTIN IS COVERING ALL OF THE RELIGIOUS BASES

With the Russian elections coming at the end of this year, Vladimir Putin is again running for President of Russia and taking steps to get blessings from not only that of Patriarch Kiril of the Russian Orthodox Church, but of the Head Mufti Ravil Gajnutdin and Rabbi Berl Lazar.

PUTIN-MEDVEDEV ARE SPENDING \$1.5 BILLIONS ON THEIR PRIVATE OFFICES AND THEIR DINING ROOM

HERE ARE JUST SOME RESULTS OF THE SCHOOLING IN TODAY'S RUSSIA BELIEVE IT OR NOT

This was aired on the Russian TV Evening News. The announcer stated that a survey was taken of olds in Moscow, asking them the following question: who Lenin was? Here are some of the replies!

1. He was a performing artist – a singer.
2. He was a member of the Beatles.
3. He was a friend of Paul McCartney who performed in Red Square not long ago.
4. He was some kind of stand-up comedian who sat on the floor.
5. He was a former British Prime Minister.
6. He was a civil war general that fought Stalin.
- 7 He was a rich bourgeois Russian who lived in St. Petersburg, was paid by the Germans to return to Russia in order to overthrow the Russian Czar.
8. He was a criminal who escaped a Siberian prison and became a communist.

There it is – the result of the present Russian history.

In actual fact - in the last twenty years since the fall of the USSR, Lenin Statues have been taken down, disassembled and sold off to scrap dealers. Many of these Lenin Statues are made of expensive granite and sold to rich collectors in America, where they were set up in private homes as conversation pieces.

In present-day Ukraine it was a favorite pastime of nationalist people (*nationalist inspired- Editor of NSC*) to drive at night with sledgehammers and bash the heads off the pedestals and could not be reached. The latest incident took place in Kiev, when a group of Kiev youths climbed on Kreshchatik Street, and using chisels and hammers, removed the face of Lenin.

The photographs on these pages show vividly that the struggle for Socialism and the rebirth of the USSR involves the young and elder generation against the present US supported reactionary regimes. This struggle is gaining more momentum and it needs unity and our support towards coming victory!

ACCORDING TO MISHKA

AN OPEN LETTER TO RUSSIAN PRESIDENT MEDVEDEV AND PRIME MINISTER PUTIN

BY MISHKA – Canadian Friends of Soviet People

Your actions by refusing to use Russia's Veto Power in the UN Security Council gave US Imperialism the signal to go-ahead and without declaring war on Libya to mercilessly daily bomb the country and cause untold deaths and devastation, all under the cloak of *fighting "terrorism"*!

Both of you agreed in 1991 to the dismantling of the USSR – the "*Evil Empire*" as coined by former U.S. President Reagan - U.S. Imperialists had to find another enemy to fight. The Pentagon started to invade countries to fight "*terrorists*" in the name of "*democracy*" and saving the United States of America.

I do hope that both of you kept abreast as to where U.S. Imperialists were bringing "*democratic*" countries of the world. Friends of the Soviet People in Canada certainly kept track of all of those "*democratic U.S. ventures*".

U.S. President Reagan invaded Grenada to save U.S. "medical students" who were not threatened. George W. Bush invaded Panama to arrest its leader. Clinton bombed Yugoslavia – for humanitarian reasons. W. Bush hit Afghanistan because of its Taliban government – deposed the government bin Laden train his troops for US use in the future. In March of 2003 President Bush invaded and occupied Iraq, because "clear evidence" showed that Saddam Hussein had Weapons of Mass Destruction (WMD) and links to al Qaeda.

All of the above have been proven false and condemned by humanity

In March of 2011, President Obama "*refused to wait for the images of the so-called slaughter and mass graves in Libya before taking action*" – as was to be given to Obama by the CIA operatives in Libya. President Obama assured the people of the United States that he did not intend to change the Libyan regime, but to stop "*an advancing army, prevent a massacre and establish a no-fly zone over Libya with our Allies and partners*".

Without declaring war - US-NATO planes bombed Libya for many months and instead of admitting this daily bombing and missile carnage attacks against the people of Libya. This undeclared war. While US-NATO bombing were killing hundreds of civilians and devastating the country – including Gaddafi's family members – President Obama refused to acknowledge that this was a **CONSTITUTED WAR**

The US and NATO elite press correspondents somehow did not even report or ask: doesn't **"WAR" apply when you attack another country with your Armed Forces?** President Obama quoted as saying to the effect that: "*since US-NATO are using drone planes and rockets to drop bombs and missies and no soldiers are on the ground – this is not WAR!*"

In actual fact the above means the following:

Since the US Pentagon Military told Obama that since we have such superior technical power US-NATO troops will be on the ground or die, and using our drones and missiles, God has made possible for the US to make war and not suffer casualties or having to have a US Congress debate over our Libya actions.

So Mr. Medvedev and Mr. Putin – all what I have said above could have been avoided if Russia and your partner - China – would have used your VETO POWER! I hope that your actions will help you for the rest of your lives! **To be honest – I doubt very much whether both of you have a conscience!**

Based on the article by Saul Landau

NATO BOMBED UNESCO WORLD HERITAGE SITE IN LIBYA

From KOMINFORM- Aug. 18-2011

NATO aircraft have bombed a unique ancient city of Leptis Magna in Libya, the official news agency reported.

Sprawling along the Mediterranean coast, Leptis Magna as a UNESCO World Heritage site is famous for its antique Roman architecture. The city was founded around 1100 B.C. and is often called Rome in Africa.

In a very strong condemnation of the bombing, the Libyan Government accused NATO of not distinguishing between military and civilian targets and grossly violating all of the international norms and conventions.

200 AFRICAN LEADERS PROTEST NATOS ACTION IN LIBYA

By Livhuwani Mamburu

More than 200 African leaders have issued a statement warning about Africa being again colonized as NATO continues to support the Libya rebels.

They charged that the UN Security Council is allowing the complete marginalisation of the whole African continent and of the African Union.

NATO has empowered itself openly to pursue the objective of any regime change that they want and to use any force and other means in order to overthrow the governments – which is in complete variance with the decisions of the UN Security Council as well as of the UN Charter.

The African Union (AU) stands for peace, democracy and freedom for all the people. This is our policy whether you talk about the Ivory Coast, Sudan, Libya or any other country on the African Continent.

BAN OF COMMUNIST SYMBOLS IN POLAND RULED UNLAWFUL NOW

By Beata Karon – CC Communist Party of Poland

In a blow to the reactionary forces of the Polish Government, the Constitutional Tribunal of Poland has decided to halt the ban on the display of revolutionary symbols and pictures. At one time it was even in the works that the Polish Government would ban the wearing of the Che Guevara T-shirts. The Tribunal on July 19, 2011 issued a verdict that the ban on Communist symbols in Poland violates the Polish Constitution.

This verdict is definitive. It confirms that our arguments and protests first step in the struggle against anti-communism. We must continue our struggle on the national level and also on the international level, because of the ongoing reprisals that are going on in many countries of the world, particularly in Eastern Europe. Case in point is the lawsuit against Algirdas Paleckis in Lithuania.

The Slovak Government has passed a law that criminalizes the questioning of the "communist crimes" in Slovakia – is the most

recent evidence of this tendency.

In conclusion, I would like to thank all the organizations, movements and parties who support our protests and who took part in the meeting and protest on June 8th in Warsaw to show their solidarity and support for our struggles.

SYRIAN TROOPS SEIZE FOREIGN - SUPPLIED WEAPONS IN LATAKIA

From KOMINFORM

DAMASCUS, AUGUST 19, 2011

Military weapons, explosives, booby traps, grenades, rifles, machine guns and uniforms were confiscated by Syrian troops after they liberated Latakia. The Syrian troops restored order and stability in the area against the NATO-US supported and organized counter-revolutionaries.

NATO is demanding that President Bashar al-Assad should resign. NATO even organized these rebels to try and sabotage the electricity grid – SANA Agency reported.

COMMENT: We suggest that the Syrian Government demand the resignation of the US President Obama and Prime Minister Harper of Canada.

COLD WAR MENTALITY IS STILL ALIVE IN THE USA PRESIDENTIAL CANDIDATE

By RT

Even with bin Laden out of the picture, America still has problems to worry about. For one, there is still that looming threat of the Soviet Union. That's what Republican Presidential Candidate Michele Bachmann thinks. In an interview conducted by a Christian Radio Station host Jay Sekulow, Michelle offered her latest flub.

She said that the USSR still poses a threat to the USA, even though there is no longer Communist that are running the USSR.

She is obviously playing the Cold War Game again, telling the American people that the UJSSR is still alive, governed by Communists and America must be on guard as always against this "Red Bear!". She also said this gem: "Not all cultures are equal to our American culture!"

HAIL AMERICA!

LIES BY WESTERN MEDIA ABOUT SYRIA

BY PRENSA LATINA

Last month the Syrian army units dismantled barricades that were set up by the armed terrorists backed by Western and Israel supported forces in the port city of Latakia, where disturbances occurred.

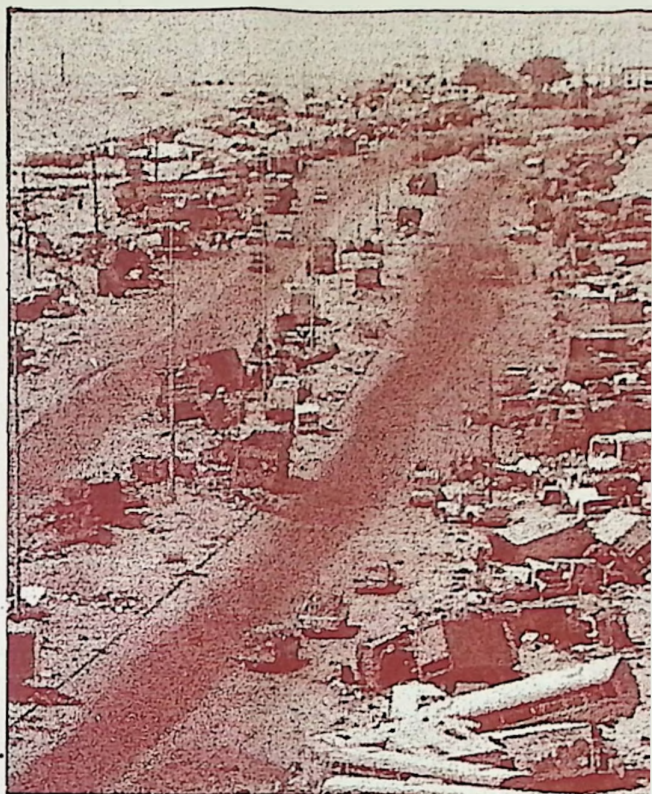

At the same time, Palestinian institutions denied statements in the world media that camps for Palestinian refugees in Syria were targeted by Syrian artillery. The Syrian army had to take down the barricades as well deactivated the anti-personnel mines planted by the anti-Syrian armed terrorists, according to the SANSAs news agency. Many civilians were injured by these planted mines.

The Palestinian refugee institutions absolutely denied the news item that the Syrians were bombing their camp.

These Western backed provocations are part of the attempt to damage the position taken by Syria and Palestine, stated Ali Mustafa, Director of the General Committee of the Arab-Palestinian Refugees.

Mustafa urged Fulippo Grande, UNRWA High Commissioner to immediately correct the allegations in a Statement issued by his Agency - that those allegations against Syria are baseless and are lies.

Israel is violating free expression in approving a law that penalizes individual and organizations that call for boycotting Israel. The law was approved by Israel Parliament by a vote of 47-38 last July 11, 2011. RAGE AGAINST CAPITALISM IN BRITAIN

STATEMENT BY CPGB-ML

The riots that broke out in Tottenham, north of London last August 6, 2011 and again over many subsequent nights, spread first to the communities across London, and then to cities right across the country, represented the spontaneous anger of a broad section of the working people, particularly the poorest and oppressed, at police violence, racism and the burden of the capitalist crisis that they are forced to carry, not only through cuts, but also through high unemployment and dead-end jobs.

The immediate catalyst for the riots was the police shooting of Mark Duggan, a 29-year old father of three children, who was killed by the police early in the evening as he was on his way home to the nearby Broadwater Farm estate by minicab. His killing was part of a planned police operation, which supposedly directed at "gun crime" in the African Caribbean community, and was carried out by a special firearms unit.

The police initially claimed that one of the officers were nearly killed and only his radio on his chest saved him. But the newspaper The Guardian, on August 8th reported that that this bullet was not his because the ballistic report showed that it was a police issued bullet.

In response, Mark's family and friends called a peaceful vigil outside the local police station on August 6. Whole families and young children joined them with homemade placards and shouting - "No justice, no peace!" The first night protest was also sparked by the brutal police beating with shields and batons of a 16-year old girl taking part in the protest. She was pounded by 15 police riot shields and only saved by friends who dragged her away.

It was only after this vicious beating that the group of young men reportedly started to attack the

police cars.

Predictably, much is made of the acts of looting that are an inevitable feature of such spontaneous outbursts. However, they should not be allowed to detract from the main character of the event, namely a justified revolt against the police brutality and killings and repression, racism and poverty.

The crucial lesson that the working class urgently needs to learn is that the real source of the misery and frustration is the capitalist system of production. This is governed by a handful of billionaires, who grow richer by the hour while pressing down hard on

those who work to create these riches.

Communists certainly need to form themselves into defensive bodies to resist the police and other agents of the bourgeois repression. But above all, the working class needs its own general staff, which can lead not only to devastating struggles but also to struggles to overthrow the increasingly criminal rule of the bourgeois class of heartless billionaires whose system treats the millions of working class people as vermin.

The General Staff can only be the Communist Party, guided by the science of Marxism-Leninism.

Brutality of the London police, undercover cops and the economic plight of young people caused these huge demonstrations across England

CORRUPT CHINA OFFICIALS STOLE OVER \$87 BILLIONS

www.breaking news.ie

Thousands of corrupt Chinese Officials have stolen over \$87 billions and fled China for overseas since the middle of 1990s – the Chinese Central Bank admitted in August of 2011.

Between 16,000 to 18,000 government officials and government top executives of the state-owned enterprises smuggled about 800 Billion Yuan out of China between mid 1990s and 2008.

The People's Bank of China expose showed these officials smuggled the money to the US, Australia, Canada and Holland, using already arranged offshore bank accounts or investments such as property or collectibles.

These Chinese officials, masked these huge thefts as "business transactions" by setting up private companies to receive all those money transfers.

WORLD DEBT UNPAYABLE – SOLUTION IS COLLAPSE!

From article in Global Research

As far as we know, the US Treasury thus far has spent and borrowed over \$100 billions from the US Federal Pension accounts. Unless there is agreement in the US Congress, the American Government will be borrowing over \$300 billions on top of the above figure.

The US Congress and President Obama want to increase this debt up to \$2.4 Trillion dollars!

The propaganda is flowing to keep the American people from panicking in the face of not being able to recover, no short-term debt expansion, while the municipal and state failures in Europe are starting to collapse. The US consumer confidence is very low since unemployment is rising sharply, retail sales are falling while the manufacturing figures are falling very sharply.

The Greek situation is very dangerous and its default will not only bring the Euro currency down, it will also take down the whole European banking system. The World Bank and the IMF cannot agree or find an answer.

It's a fact that world debt is un-payable, especially that of the US, UK and the Euro zone. The only solution is collapse! There can be no saving of the present system. It is only a matter of time and to see what this catalyst is.

VENEZUELA RECOGNIZES ONLY THE GADDAFI GOVERNMENT

Associated Press

President Hugo Chavez stated in August that Venezuela will continue to recognize Moammar Gaddafi as the leader of Libya and will refuse to recognize the rebel-led interim government.

He condemned the roles of NATO and of the US Government. Chavez also said that "Without a doubt, we're facing imperialist madness, with the US and EU fomenting internal conflicts in order to seize control of Libya oil riches."

He also charged that the US is "Getting the dogs to fight, arming them here, arming them there, and daily bombing all over the country."

They loot everything, they take all the reserves and the oil. This destroys all international law and takes the world back to the Stone Age!"

NAZISM IN EUROPE IS ACTIVE AND GROWING

Although Nazism was condemned at the Nuremberg Tribunal more than 50 years ago and most of its leaders executed or jailed after the end of World War II, its resurrection is beginning to be more noticeable and brazen.

On July 30th, in the small Estonian town of Sinimäe, another rally of Estonian veterans of the Nazi Waffen SS Division, which fought against the Allies on the German side, as well as against the Soviet Red Army, gathered in their Waffen SS Uniforms to pay homage to Hitler and their SS

The worker-activists must be released immediately and unconditionally from the prisons of the Islamic Republic of Iran !

Dear comrades,

The criminal regime of the Islamic Republic of Iran has recently intensified the repression of the labourers and worker-activists. In the past few months, many labour-activists have been detained, imprisoned, and tortured by the security forces of the Islamic Republic.

Shahrokh Zamani, a house-painter and decorator has been in detention since June 7, 2011. He was arrested while traveling from the city of Tabriz to the Capital Tehran by a public bus. Shahrokh was involved in establishing the independent trade union "Painters' Syndicate" and he is a member of the "Committee to Form Independent Worker Syndicates". Shahrokh Zamani was kept in solitary confinement for more than a month. He went on hunger strike for a week to protest his detention and mistreatment. The regime of the Islamic Republic has transferred him to Tabriz prison. No official warrant for the arrest of Shahrokh was issued and no charges are filed against him.

The capitalist regime of the Islamic Republic is fearful of the formation of independent worker-organisations and of the unity of the workers with other sections of the society. The Islamic regime sees its end by the united and nation-wide strikes and protests of the labourers and is trying to suffocate any attempt to build independent and democratic workers' organisations.

Following this policy, the regime of the Islamic Republic of Iran has harassed, tortured and imprisoned Mansour Ossalou, Ali Nejati, Ebrahim Madadi, Torabian, and other prominent trade union activists for several years. Shahrokh Zamani, together with his comrades, Mohammad Jarrahi and Seyed (both are labour activists), and two university students Nima Pourhemmat and Sassan Vahhabi are the latest known victims of this criminal policy.

Our Party believes that repression of the workers and toilers by the regime of the Islamic Republic of Iran also serves the interests of imperialism and the world reaction. We strongly condemn the repressive actions of the Iranian regime.

The Party of Labour of Iran (Toufan) supports the just struggles of the labour-activists for a better working condition and we praise their attempts to form independent trade unions. We call on all fraternal Parties and the Marxist-Leninist Organizations, all worker-activists, and all progressive minded individuals of the world to express solidarity with the struggles of the Iranian worker-activists. The people of the world should be outraged over the imprisonment and treatment of the Iranian masses and labour activists and to demand the regime of Islamic Republic to free all political prisoners immediately and unconditionally. Only the intensification of the just struggle of the Iranian labourers and of the genuine international support for masses can force the Islamic regime to retreat and to stop the repression of the Iranian people.

Release Shahrokh Zamani and other worker-activists immediately and unconditionally!

Long live the struggles of the Iranian working class!

Down with the capitalist regime of the Islamic Republic of Iran!

NATO AND REBELS ACCUSED OF WAR CRIMES IN LIBYA

*By Alex Newman -
THE NEW AMERICAN*

NATO is being heavily criticized by most news media for hundreds of civilian casualties and targeting non-military infrastructures. The coalition forces who are supported by NATO are also being criticized of wanton savagery and crimes against humanity.

In August NATO bombed the Libyan city of Zlitan and foreign correspondents saw the actual bodies of over 100 civilians killed – more than half of them were women and children.

In addition to thousands of "collateral damage" deaths, NATO last month bombed the so-called "Great Man-Made River Systems", a pipeline that delivers water to a very large percentage of the Libyan population. An observer from Pakistan news Agency wrote: "The attack was a war crime and causing a humanitarian disaster!"

Numerous videos posted on line show the barbarity of these NATO-backed so-called "freedom fighters" beheading and lynching people, as well as wanton rape of women.

As "The New America" observers on the scene in Libya reported: "These rebel allies of NATO are mostly led by self-described leaders of al Qaeda and other extreme Islamic groups that boast that they had battled American troops everywhere, from Iraq to Afghanistan. Some of these leaders – as is now proven by researchers – were former US prisoners in Guantanamo Bay, Cuba."

GRUESOME TROPHIES BY UK SOLDIERS IN AFGHANISTAN

The British Defense Ministry are investigating hair-raising facts that its soldiers sliced fingers off the dead Taliban fighters in Afghanistan in order to bring them back home as souvenirs.

The British Defense Ministry refused to comment on these charges, pending a military probe of many serious allegations that are being backed up by facts and even photographs and video footage.

This follows the charge against a US soldier in Afghanistan who killed many Afghan civilians, dismembered their bodies and took bones and teeth as keepsakes, and even videotaping this horrid scene.

Several years ago most of the electronic archives of the British troops' stay in Iraq were mysteriously deleted by the top brass in order to hide any evidence of the misdeeds and abuse, after scores of Iraqis filed official lawsuits against the British and also against the American troops.

NATO'S LIBYAN GENERALS MUST BE TRIED

By REID EPSTEIN -Politico

NATO Commanders, who authorized the Libya bombing should be held "accountable" to international law and hauled before the world court for civilian deaths - said US Representative Dennis Kucinich (D-Ohio) last month.

"NATO commanders acted under cover of international law, but they are not exempt from international law. If this is not done, we will have witnessed the triumph of new international gangsters."

Kucinich, who in March of this year said that President Obama's authorizing of air strikes against Libya was "an impeachable offense" and then sponsored a July measure to not fund the US-NATO military efforts there.

"The reasons given by Obama and NATO for intervention in Libya keeps changing all the time. First it was against the potential for a massacre by Gaddafi in Benghazi. When this massacre did not occur and once the war against Libya was under way, the reasons for intervention also changed."

"Was the USA, in the participation to overthrow of the Libyan Gaddafi government,

furthering the aims of international oil corporations in pursuit of the control of one of the world's largest oil resources? Did the USA at the inception of the war aligned itself with Al Qaeda, while elsewhere in the Middle East it continued to use the bogus threat of Al-Qaeda as the reason for US military intervention, presence and occupation in other countries?"

FASCIST MASSACRE IN NORWAY

By Marxist-Leninist Organization
Revoljusun of Norway

The fascist onslaught in Norway killed close to 100 people, targeting the political engagement and organization amongst the progressive and democratic youth in particular.

This was the worst terrorist attack in the Nordic countries since the Second World War, perhaps the most systematic slaughter of young people in recent history. The youth that were killed attended a Youth Camp of Social Democratic Labour Party of Norway.

We know now, despite the purposely-promoted news that it was not the work of any fanatical Islamists. It was the work of a blonde conservative boy, business founder, freemasonry and former Progress Party member, Anders Bering Brevier (32) who was responsible for the bomb in Oslo and the massacre of 85 young AUF-members and sympathizers on the island of Utica - a crime that he has confessed to have committed.

He followed the methods of his like-minded Christian-Fascist terrorist groups in the United States, actions that were directed against federal buildings, abortion clinics and school massacres carried out by individuals.

He is a Temple against Islam and Marxism.

APTUF representatives said that the government of Pakistan has totally failed to tackle the Karachi carnage in which more than 300 people have been killed in the last two weeks amid the struggle between the current governing regime of the Pakistan People Party and Muttahida Quami Movement (MQM).

The federal government imposed with immediate effect the commissionerate system in Sindh province to control the worsening law and order situation of Karachi city for which the MQM has severe reservations and they refused to accept this system. It was discussed that the MQM is in the favor of the devolution system introduced by the Musharraf regime as MQM holds great power in Karachi having strong roots in that system.

It was discussed that in the current scenario of violence in Karachi, the federal and provincial governments, political parties, religious parties, law enforcement agencies have all failed to sort out the real culprits and masterminds behind this unrest and massacre in Karachi. The political parties are blaming and accusing each other on the killing of innocent people in Karachi. At this time the tension erupted between MQM and Awami National Party (ANP). Awami National Party is a major coalition partner in the current political setup in the country and also in power in North-West province of Khyber Pukhtoonkhwa.

Political parties have no concern about the killing of innocent people, industry is shut down and wrkrs are losing their jobs, even the small shopkeepers are unable to run their business, the country is going to stoneage. It is the history that whenever in past MQM split from the government the streets of Karachi turned in to the blood pools but no

one names the forces behind the killing of hundreds of innocent people. Target killing in Karachi has destroyed its peace and the government has lifted the people of Karachi over the blessing of target killers. It was said that the government has completely failed to control law and order situation in the country and the people of Karachi are caught by fear due to target killings and the government has become a silent spectator over situation of Karachi.

APTUF representative strongly condemned the killing of innocent poor people and the working class of Karachi and said the government responsibility is to provide security to all people of Pakistan, but here in Karachi it seems that there is no government rule. We need peace and free Pakistan from armament. And demand government to immediately call a political parties meeting and efforts to bring peace in Karachi. Start action against the culprits having guns and bombs, and give punishment to those involved in innocent people killing.

FASCISM ON THE RISE IN BULGARIA AND ROMANIA

This is very hard to believe, but because of the policy of NATO-EU imperialist policies, these are the results now.

A War Memorial to the Soviet Red Army in Sofia, Bulgaria, was defaced - without any consequences by the authorities! These Soviet Red Army Soldiers in this Memorial were turned by graffiti into American icons - such as Ronald McDonald, Superman and Santa Claus.

<http://www.huffingtonpost.com>

The present President of Romania stated that his country was correct in supporting Hitler and his "Operation Barbarossa" during the Second World War and the attack against the Soviet Union. The WWII cost humanity the lives of 50,000,000 people!

Where is the outcry from countries that fought the Nazis? How come the NATO-EU media is not reporting this growing fascism?

BRITISH IMPERIALIST POLICY IN LIBYA'S COUNTER-REVOLUTION

ASSOCIATED PRESS

British military-diplomatic unit worked with NATO to choke off most of the oil supplies to Libya forces. These British diplomats and military officials aided the rebels to choke off supplies of crude oil, shutter the refineries and stem the flow of fuel to Libyan government.

This British undercover team helped to identify a major oil refinery in Zawiyah, 19 miles from Tripoli, a key supply facility for Gaddafi's forces that were fighting the rebels, and told NATO to use their war ships to blockade the town's port facility.

British officials in London also provided information on an important oil supply route from the Nafusa mountains. This Zawiyah refinery has a capacity of 120,000 barrels per day, the second largest in Libya.

This news item was given Associated Press by a government official on condition of anonymity.

This secret unity was formed under Prime Minister David Cameron, who stated to the NATO meeting in Paris that Britain would

use all "diplomatic, military, economic and undercover tools to get rid of Gaddafi."

Also, the British development minister Alan Duncan - who was the top oil trader on the world stock market - was very instrumental in chocking off Gaddafi's oil-energy supply.

OVER 100 GERMAN TROOPS INVOLVED IN ATTACK ON LIBYA

From Deutsche Presse-Agentur

The German Defense Minister Thomas de Maiziere said ...that the use of German soldiers in any NATO operation does not require any discussion by members of the German Government or any parliamentary approval.

The Green Party member of parliament Hans-Christian Strobele accused the German government of inconsistency and that - "it contradicts every public declaration that Germany does not want to be involved militarily as soldiers in NATO's Libya mission."

BARACK OBAMA: A NEOCON IN SHEEP'S CLOTHING

By RT - com-news@yahoo.com

I admit it; I was one of the estimated 5.9 billion people worldwide who was initially captivated, enraptured, shellacked, call it what you will, by America's "first black president" Barack Hussein Obama.

But who on earth wasn't?

Following eight brutal years of being dragged around the planet in search of monsters by a self-declared "war president," it was all too easy to be seduced by Obama's honey-dripping message of Hope and Change.

The Bush years, we believed, were an unfortunate and very un-American anomaly and Obama would put the American house back in order. Yes, we'd sit down and chat with tyrants; we'd get tough with transnational corporations; we'd put the long-forgotten rugged individuals back where they belong in the grand order of things. With the triumphant election of Barack Obama, it felt like morning again in America, which had just passed through the longest, darkest night of its history.

Indeed, the need to believe the hype and hysteria was so powerful that it even compelled the otherwise intelligent people at the Nobel Institute to pin the peace laurels on Obama's chest at the very same time US troops were hunkered down on two fronts.

The international community is no longer enamored by Obama, however, at least not the way they were just three years ago. The American president can still charm the pants off a news conference, and deliver a mesmerizing speech via the teleprompter, but the magic of those early days, when Change was so close you could almost reach out and touch it, has vanished into thin air.

"Obamania" has been downgraded to "Obamanic depression."

The British betrayed their inner feelings about America's Commander in Speech when they chose a tongue-in-cheek codename for Obama's recent UK visit.

According to the Daily Mail: "More than one person has wanted to call Barack Obama a 'smart Alec', and now British police will get the chance to do so without getting reprimanded. That's because Scotland Yard has tapped the codename 'Chalauque' to refer to the U.S. president for security reasons during his upcoming state visit to the United Kingdom May 24-26."

And what exactly does "Chalauque" mean? The Mail, quoting a Punjabi speaker, said the word is used "when we want to denigrate someone who we think is too clever for their own good."

Although Scotland Yard says the name was selected randomly from some cheeky supercomputer, the characterization appears too accurate to be the product of mere chance. Besides, even if the program really did spit out the very applicable designation, the British authorities could have easily commanded the computer to 'try again.'

Anyways, there is no need for name calling when simply reporting the facts is so much more effective.

GUANTANAMO BAY

Of Barack Obama's numerous unfulfilled promises, the failure to shut down the Guantanamo Bay detention facility is the most glaring and unpardonable. Not only does this prison, situated in a remote corner of communist Cuba, fly in the face of democratic principles, it has actually served to harden the resolve of America's enemies due to the inhumane treatment of the detainees, some of whom are innocent.

According to a report by Human Rights Watch, "Washington has ignored human rights standards in its own treatment of terrorism suspects. It has refused to apply the Geneva Conventions to prisoners of war from Afghanistan, and has misused the designation of 'illegal combatant' to apply to criminal suspects on U.S. soil."

On May 25, 2005, Amnesty International released its annual report calling the detention facility the "gulag of our times."

Meanwhile, Lord Steyn, a promoter called it "a monstrous failure of justice will act as interrogators, prosecutor, and when death sentences are imposed be held in secret. None of the guards observed."

Remember, Obama was going to fail. It is no question about: it is insane.

WAR

Barack Obama has failed to end the war he promised to do on the campaign. US troop strength has tripled there, soldiers are on the rapid uptick. Accidents since Obama took over the Oval Office in Afghanistan, compared to 575 in the president.

In Iraq, where the official close of war was announced, Obama has left behind a mess tasked with training the Iraqi Security counterterrorism operations. Obama until the end of 2011, but only a face at face value.

Did Obama stop the illegitimate anti-technology? Here is Cindy Sheehan in Iraq: "On day three (of Obama's) drone bombing strike in the tribal region murdering a reported 36 civilians. So this tactic of abject terror 192 more civilian deaths. In the four years of the terror it was used 43 times. In this a overachiever."

Not only has our Nobel Laureate for Afghanistan and Iraq, he threw his intervention in Libya, where antigovernment overthrow Libyan strongman Muammar conducting massive aerial bombardment casualties on the civilian population "thousands" have been killed since months ago, and hundreds of thousands.

OBAMA BATTING FOR BUSH

Ok, so you are still unconvinced the continued Bush-era policy, but actually, recently continuing with Bush tax cuts the US is facing the deepest deficit through an extension of the Patriot Act expire.

The Patriot Act, rammed through America was in a code-red panic for US security agencies to implement extensive searches against private of the iceberg concerning its power real democratic debate on this act.

Did Obama the Great Changer give needs on the subject of this invasion own constituents, many of whom end this draconian trend toward tyranny the eleventh hour, just minutes before Patriot Act was set to succumb to a once challenged us to have the audacity legislation for another four years with France.

THE SUCCESSFUL CONGRESS OF THE INTERNATIONAL COUNCIL FOR FRIENDSHIP AND SOLIDARITY WITH THE SOVIET PEOPLE

On the 9, 10 and 11 September, the Third World Congress of the International Council for Friendship and Solidarity with Soviet People took place in Toronto, Canada. It was attended by representatives of

many organizations in the world, from different countries such as the former Soviet Union and former Yugoslavia, India, Sri Lanka (Tamil), Chile, United States, Canada, Australia, Finland and Great Britain.

There were representatives of different organizations from some countries. Chile was represented by Comrade Eduardo Artés, First Secretary of the Communist Party of Chile (Proletarian Action). Several delegates were not allowed in the country to attend the Congress because the reactionary government of Canada refused to issue a visa. Nevertheless, to compensate for

their absence, those delegates sent many greetings and statements indicating their strong commitment to the struggle for the achievement of our common objectives.

Frank Trampus opened the Congress, while Michael Lucas introduced the delegates participating in the sessions, and, in his capacity as main leader of the International Council, he led and guided the discussions throughout the debates and presentations.

Many topics were discussed: the main report presented by Michael Lucas, the different language editions of the magazine "Northstar Compass", the situation in each country, the promotion of the magazine and of solidarity with the Soviet peoples, the struggle of communists, the necessary unity of the Soviet Communists on the basis of Marxism-Leninism, the denunciation of and the open struggle against revisionism, and the defence of the legacy of Lenin and Stalin.

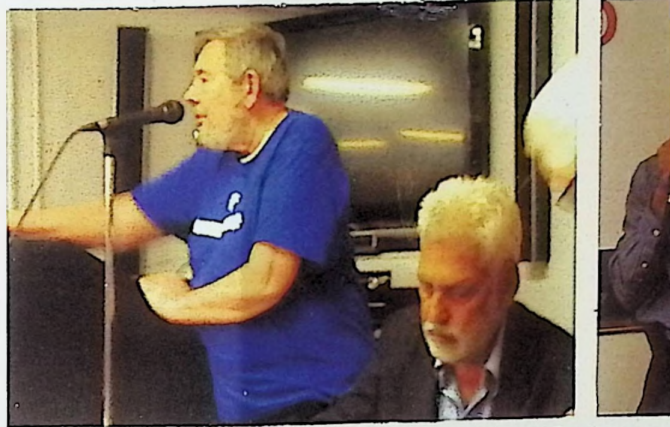

All contributions and interventions were followed with great attention and generated several questions and comments from the delegates present. The presentation by Eduardo Artés, on the situation in Chile and on the struggle of the workers and the people, on the tasks of international solidarity and on the promotion of Spanish language edition of Northstar Compass, was greeted with enthusiasm by members present at the Congress.

Two books were launched during the Congress: "Khrushchev Lied", by Professor Grover Furr, from the United States, and "U.S. Democracy: The U.S. Empire's Indispensable Myth", by Ray O. Light, also from the United States. Both authors provided an extensive overview of their works.

Presentations of firm Leninist orientation were made at the

The presence and intervention of General Alexander Fomin, a member of the Union of Soviet Officers, not only recalled the heroic role of the Red Army but also focused the debate on the revisionist treachery of Khrushchev and on the perspective of the revolutionary struggle to rebuild socialism **today** in what was the Country of the Soviets.

We would like to emphasize that although the Council is a broad international organization dedicated to the defence and promotion of socialism at the time of Lenin and Stalin, because of its superiority, its orientation is clearly defined: it is a Marxist-Leninist organization, focused on the struggle against and the denunciation of the reactionary

BOOK REVIEW

Ray O. Light's new book has compiled a history of U.S. democracy, which represents a threat to the world. It exposes the fact that there is no significant difference between the Democratic and Republican parties, in their support of the current administration. These Republicrats work wars in the interests of the monopoly capitalists, the ruling class, the peoples abroad and working people at home. The book is available for \$10 + \$5 postage. Dear Irwin and Fran,

I was distressed upon learning from Richard, this morning, of the sad news about Margaret, and I wish I could find the right words or means of offering you some form of consolation. What consolation is possible for the untimely loss of a beautiful and socially-dedicated heroic daughter?

Richard told me the story of a nine-year old schoolgirl who stood up in the classroom before her ill-informed and ill-advised teacher. The teacher had told the class, at the time of the Rosenberg electrocutions, that they deserved what happened to them because they were guilty. The heroic girl defiantly replied, "They are no more guilty than you are."

During that period of paranoiac anti-Communist hysteria, it took rare courage for anyone to stand up in the classroom with such daring words, let alone for a nine-year old. That child would have to be the daughter of Fran and Irwin Corey.

NEWS, DIGEST, COMMENTS

NATO IN LIBYA AND THE ROLE OF BRITAIN

From UK INDEPENDENT

"Since March 19, when the British Navy launched cruise missiles into Libya air-defense targets, followed the next day by daily attacks of the Royal Air Force Jets – the British Government was planning their undercover "Operation Ellamy" was operating on the ground in Libya for over 6 months prior to outright attacks...this involved an army of British diplomats, spooks, military advisors to the rebels as well as scores of secret former members of the British Special Forces.

This NATO coalition of Britain, France and Italy has also funded high-tech equipment to the rebels to communicate their position to NATO and get instructions from NATO surveillance from NATO spy-planes as to the positions of Libyan troops in the country.

Britain began expelling Libyan diplomats, buying some off with large sums of money.

All of the above is to get their hands again on the Libyan Oil and help France to re-colonize Libya again and in this way be certain that US Imperialism has an ally that will follow the diktat of Washington."

HERE ARE SOME FACTS FROM OTHER NEWS MEDIA

*Until August 22 NATO flew 19,877 bombing missions – using powerful high-explosive munitions able to cause deadly effects on humans and buildings..

* Without these daily bombings, internal spies, foreign mercenaries, financial and a constant supply of arms, these rag-tag rebels would have disintegrated long ago.

*Until the former USSR collapsed, communism was the alleged enemy. Today it's terrorism, as bogus as the threat of communism was. Both of these bogus lies were used for hugely profitable imperialist wars from Korea to Libya and to future others wars. The

scandalous expenditure of billions upon billions of dollars for military readiness for enemies that America did and does not have

* NATO is using the same tactics as it did in Yugoslavia – bombing of military and infrastructure to clear the way for their supported rebels.

* If justice would prevail, and the UN was not in the grip of United States of America – Obama, Cameron and Sarkozy and other NATO war criminals would face international war prosecutions for waging wars against humanity.

In his memoirs, President Truman wrote that top Jewish business and financial leaders in the United States put great pressure on him to promote Jewish aspirations on Palestine. The same pressure by Jewish lobbyist took place in England, and the leadership in England put also pressure on the UN and thus a special UN Committee was formed - UNSCOP, which demanded the immediate partitioning of Palestine into two states. With pressure by the US and England, this partitioning of Palestine was approved by the UN General Assembly on November 29, 1947.

The US Secretary of State, George Marshall and most of the White House foreign affairs experts, opposed this plan and many of them resigned in protest, since they foresaw great danger in the near future - wars and mayhem in the Arab world. Truman on his own initiative met with the Zionist leader, Chaim Weizmann to clinch this agreement.

The US Secretary of Defense James Forrestal warned President Truman about the perils of arousing Arab hostility, which will eventually lead to denial access to the very rich petroleum resources that the US needs, as well as the future danger to the United States itself.

THE BERLIN WALL STOPPED FASCISM!

From ANI - August 6, 2001

The architect and a devoted Communist, Heinz Kessler is proud about the Berlin Wall that he designed, because it was a triumph of Socialism.

The Berlin Wall was built after the German Democratic Republic was established 50 years ago in

order to stop counterrevolutionary activities promised by Western powers against the German Democratic Republic from the West Berlin controlled zone.

After the wall was dismantled in 1989, Kessler stated in an interview lately in Berlin to the media:

"The Wall was our protection. It was a great experience for me to be part of its construction. Yes now we hear about the "new freedom" that people are enjoying in Eastern Europe. But how do you define freedom?"

Millions of people in Eastern Europe are now free from employment, free from safe streets, free from health care, free from social security! While the Wall was standing, there was peace. But today there is hardly a place that is not in political turmoil.

East Germany was a wonderful country!"

Kessler described the re-united Germany as "**callous and unjust**".

He ended his interview to the ANI in Berlin with these words: "I refuse to change my position. I refuse to sacrifice my Communist beliefs to the fashion of today! I was and remain a firm believer in Communism and democratic centralism and a real revolutionary Socialist Party."

HISTORY LESSON FOR PRESIDENT OBAMA

War Crimes Committed by the US Sixty Years Ago

Sixty years have passed since the most furious war was waged after WW II, the Korean War (1950-1953) ended. During this three years war, USA, which unleashed this war in an ambition to dominate this Korean Peninsula plus the whole Asian Continent, committed outrages unprecedented in history.

Over 1,231,540 people killed!

"Regard Koreans as animals. Kill them without mercy, thinking of them as if you were killing only animals." This is a direct quote by General MacArthur at the beginning

of the Korean War.

In obedience to this official order by their Commander-in-Chief, the US mercenaries massacred in Sinchon, a small rural area in North Korea, about 35,300 innocent people, or a quarter of this county's population, during the period of their temporary occupation.

Their atrocities were beyond human imagination. At that time the majority of the foreign media reported: "The greatest atrocities of the 20th century were committed by the US troops in Korea."

These mass killings and tortures were more severe than those of Hitler's Nazis during WW II under their Nazi occupation of Europe.

US reduced the country into ashes. US Command stated publicly to the world press that they would remove 79 cities of North Korea from the face of the earth!

As a result of this decision, 2,416,407 buildings, factories, schools, hospitals and scientific institutions were destroyed – even churches and cathedrals were bombed by these so-called American apostles of God. The US dropped 428,700 bombs on the capital Pyongyang of North Korea, more than one bomb for each of its citizens. America was certain that it would take over 100 years to rebuild the city.

The US also waged Germ Warfare as well as used deadly chemical weapons against Koreans, which is strictly forbidden according to International Law which, the US Government also signed. In a period of only two months the US dropped germ bombs on over 400 targets on over 700 flight missions. These bombs spread acute epidemic viruses, like pest, cholera, smallpox, epidemic hemorrhagic fever and felling people in thousands.

Because of the germ and chemical warfare, over 50,000 died – while thousands more were dying, long after the war was over.

The US forces were told to use Korean POW's for medical experiments for the germ and chemical warfare research.

In other words, – the US Pentagon was aiming at stamping out the Koran Nation!

Let's remember that there is no Statue of Limitations for War Crimes or for the Crimes Against Humanity!

These US crimes have been ignored for 60 years in the world, while Nazi criminals of WW II are being hunted down to the last man and punished.

For justice and the future of mankind, the atrocities committed by the US during the Korean War should be punished in the name of whole of mankind. The US should never be allowed to escape from its responsibility for these horrendous crimes.

P.S.

I'm certain that you as well as the Pentagon know very well how many US Korean War Veterans committed suicide or were or still are in US mental institutions now, due to the horrendous trauma that they suffered during the Korean War. No figures of these tragedies were ever reported in the US Press. Why?

ISRAEL AND ZIONISM HAS U.S. BY THE SHORTS

*From the Postmodern Imperialism
By ERIC WALBERG*

Below NSC quotes some Actual quotes regarding Israel-Zionism

"The Israel Embassy in Washington is practically dictating to the US Congress through influential Jewish people."

US Secretary of State, John Foster Dulles – 1957

"Every time we do something, you tell me that the Americans will do this and will do that. I want to tell you members of the Israel Ksenet something very clear – don't worry about the American pressure on Israel, we, the Jewish people control America, and the Americans know it."

TRUTH MUST BE TOLD!

Former East Germans Praise GDR

By KIMBALL CARIOU

Two decades after the forced "reunification" of Germany, large numbers of young people and even many who are well off are among the majority of former East Germans who reject outright criticism of the German Democratic Republic.

Released on Oct. 1 in Berlin, the survey reveals that 57 percent of eastern Germans defend the overall record of the former East Germany.

Another eight percent agreed with this statement: "The GDR had, for the most part, good sides. Life there was happier and better than in reunified Germany today."

These results, according to an article on the website of Der Spiegel newspaper, reveal that "it is no longer merely the eternally nostalgic who mourn the loss of the GDR."

"Not even half of young people in eastern Germany describe the GDR as a dictatorship, and a majority believe the Stasi was a normal intelligence service," Schroeder concluded in a 2008 study of school students.

Similarly, the critique that east Germans had "no freedom to travel" strikes many as absurd. In the time of the GDR, they argue, citizens were free to travel to other socialist countries; today, only people with sufficient incomes can travel abroad, while many Germans are completely destitute.

One such person wrote that it wasn't until after the restoration of capitalism that he witnessed people who feared for their existence, beggars and homeless people. Many described today's Germany as a "slave state" or a "dictatorship of capital," but certainly not democratic.

FROM DONETSK UKRAINE

Dear comrades:

Thank you for your kind invitation, but I unfortunately cannot come to the Third World Congress due to lack of finances and also my health.

I sent you an article about my thoughts about the international working class and their struggles for independence and freedom.

I am sending you an excellent report published by a newspaper in Ukraine about the "17th Congress of World Youth and Students" held in South Africa this year.

Colonel Gaddafi of Libya had a great influence on the organizers of this World Youth Congress in South Africa. The activities and demonstrations by the youth on the African Continent are influenced by the results and the declaration of this 17th World Youth Congress.

This is why the US, France, England and Israel want to a

assassinate Gaddafi and what he stands for. They are afraid of the policy of Socialism in Libya and its effect on the African Continent.

We must shout loudly –

Log live Muammar Gaddafi!
Lets support the building of
Socialism in Africa!
Long live Socialism all over the
world!
Let peace and freedom prevail!

GREETINGS FROM THE ANTI-FASCIST COMMITTEE OF UKRAINE

By Vladimir Pronin – President

Dear Comrades!

Twenty years ago in August of 1991 there took was a catastrophe of such magnitude, that it affected the whole world and cost humanity more unpredictable results than 10 Chernobyls or 10 Fukushima tragedy's.

As a result of this counter-revolution tragedy, by unheard of such a horrendous traitorousness on the part o Judas Gorbachev and his cohorts of other traitors – the USSR was dismembered as well as all of the Socialist systems in Europe. To the international Communist movements as well as the workers organizations, to all of the working class in the world, this was a tragic event, that has tragic consequences up to present as you comrades are gathered at this Third World Congress and the 20th Anniversary of Northstar Compass.

Millions of former members of Communist Parties, involved in communist ideas and tasks, en mass quit their Communist parties, many parties who had already ceased to do work, then these opportunists and revisionists, join other right-wing parties and proceeded to use anti-communism, anti-Sovietism as a ladder to get to the top in these anti-communist parties. They became renegades and heaped filth and lies on the ideas that they vowed to uphold

before. **World reaction was celebrating.**

All the heroic deeds, dedication to Marxism-Leninism they abandoned, promoting utopian ideas and trumpeting to the whole world that Socialism is forever defeated – never again to be resurrected.

But in that tragic moment and time, thousands upon thousands of Communists began to lose heart, hope and dedication, feeling that this was a mortal blows to Socialism and Communism. But at that very moment 20 years ago, there were Communists who can be called pure in heart and dedication, united around the International Council for Friendship and Solidarity with the Soviet People and the publication of Northstar Compass, headed by Michael Lucas, to carry on the struggle for friendship and solidarity with the Soviet people in their struggles for Socialism and the resurrection of the USSR.

Unfortunately due to the problems of my health and financial restraint I will not be able to attend this Third World Congress. I sincerely wish the Congress great success. I am a firm believer that the decisions made by this Congress will have far reaching effects on our common struggles for the rebirth of Socialism and the Soviet Union.

The time is not far off when the unity of Communists will be achieved based on Marxism-Leninism.

Let the work of this Third World Congress show the path towards this great goal!

Do all the readers of NSC know that the Soviet classic films like "And Quietly Flows the Don" by Sholokov - has been changed to portray the renegade Kolchak who fought against Soviet power – as a her and the Red Army as the villain?

Also the movie film showing "Taras Bulba" has been changed to Taras fighting the Russians and not the Poles. Sholokov and Gogol the great writers, must be turning in their graves.

All of these changes have been done by Americans with permission buy the Russian government.

IN MEMORIAM

WALTER TYSHKO

On July 18, 2011 at Grave Hospital in Winnipeg, MN, Canada, in his 83rd year Walter Tyshko passed away.

Walter was an active member and supporter of the Canada-USSR Association – attended many Conferences, meetings and in hosting and welcoming many Soviet delegations and performing groups that visited Canada and were hosted also by the Winnipeg Branch.

Walter worked as a miner, a logger, an oiler man, and a power engineer. Walter spoke English, Russian, Ukrainian, Swedish, French German and Italian. He was also an accomplished musician, He was also a member of the Communist Party of Canada since he was 17 years old.

Eventually Walter was unable to look after himself. He was declared mentally incompetent and not having a Power of Attorney, his apartment bock and all assets were seized by the Government Trustee. He was then placed in Care Home, where he passed away.

What was painful for him to bear was the organization that he and his family belonged to – the AUUC (Association of Ukrainian Canadians) and to which he donated generously all of his life, now rejected him.

I would like to say in closing dear Walter – "It was great knowing you. We've walked a long road together and you touched me deeply. I'll always remember you!
